Previous Action(s):		\$38,000.00	
This Action:		\$6,100.00	
New Total:		\$44,100.00	

Specific Elements

Description of Work:

Scope of Work:

Increase funding and LOE for justification below:

Justification: Upper Cement Creek HRS package

- 1) Increase funding on the project to cover an slight overage and allow for more time for START to address substantial EPA regional and HQ comments on the first draft, START time attending more EPA headquarters HRS package reviewers' technical support conference calls, response to action items, and completion of the draft HRS and reference package. Additionally, START needs to obtain final versions of two removal reports and incorporate useful information into the HRS record and reference package. START needs to review the document for internal consistency and prepare the references for electronic format in an EPA HQ-approved format.
- 2) Additional hours are added to allow for other EPA support as needed, likely responses to EPA HQ contractor comments, and allow for TDD closeout.

New Deliverables: none

New Deliverable Due Date: Revised draft HRS package and references are no longer needed for a March 2012 NPL Rule; however, the Region needs a solid package in case proposal takes place in September 2012 or in 2013.
